School of Engineering & Technology

Navrachana University

Algorithms Building Blocks

Sequencing, Selection, and Iteration

Building Blocks Contd.

- An **Action** is one or more instructions that the computer performs in sequential order (from first to last).
- A **Decision** is making a choice among several actions.
- A **Loop** is one or more instructions that the computer performs repeatedly.

Building Block	Common Name
Sequence	Action
Selection	Decision
Iteration	Repetition or Loop

IF Statement in Python

Syntax

If condition :

Statements

....

Flowchart of if Statement in Python Programming

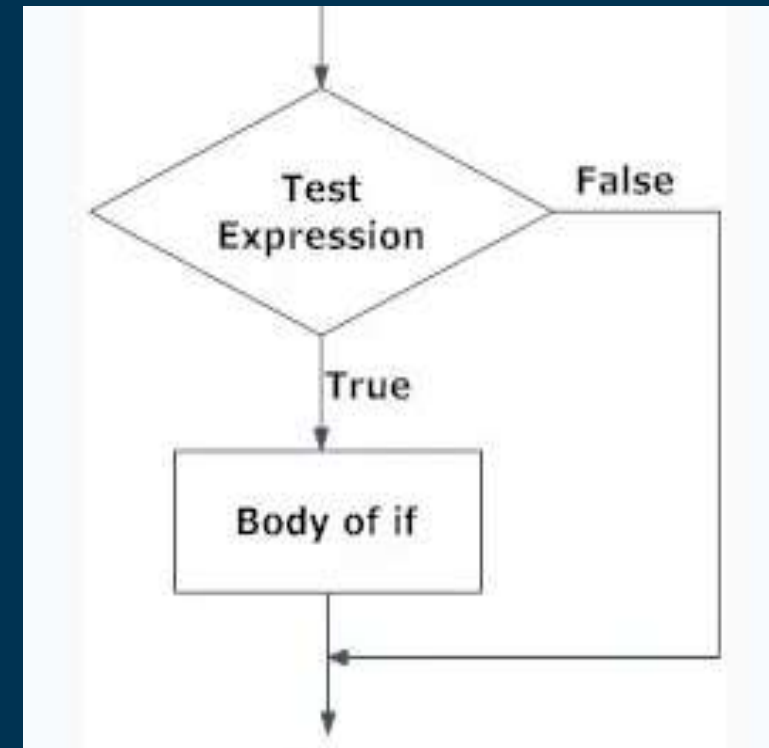

Figure 10

IF- Else Statement in Python

Syntax

```
If condition :  
    Statements 1  
    ....  
else :  
    Statements 2  
    ....
```

Flowchart of if...else Statement in Python Programming

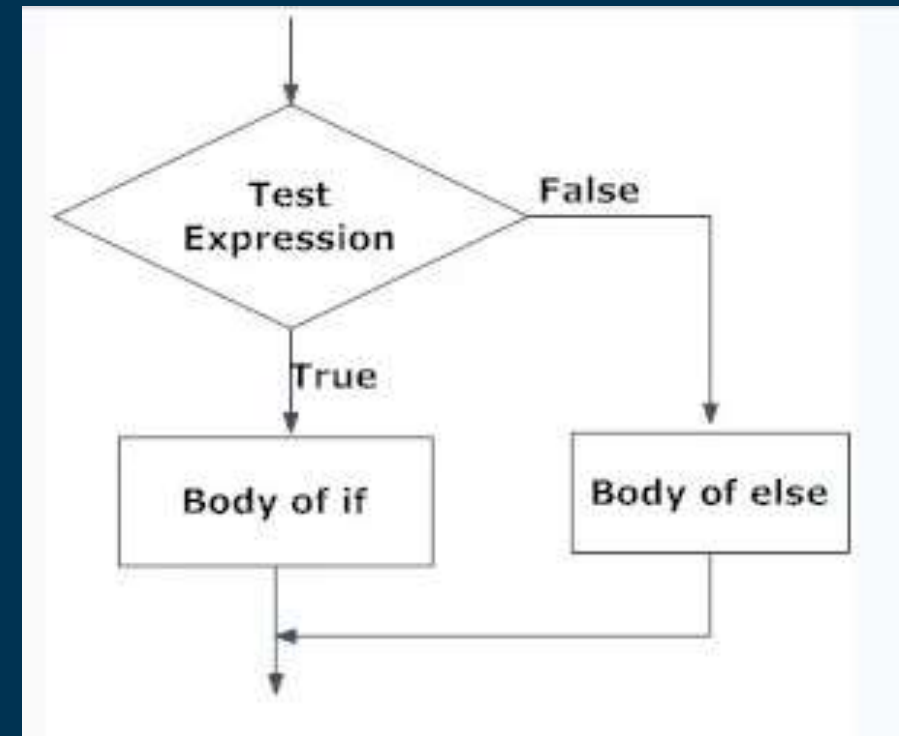

Figure 11

Python if...elif...else Statement

Syntax

```
If condition1 :  
    Statements 1  
elif condition2 :  
    Statements 2  
elif condition3 :  
    Statements 3  
else :  
    Statements 4
```

Flowchart of if...elif...else Statement in Python Programming

Nested IF- Else Statement

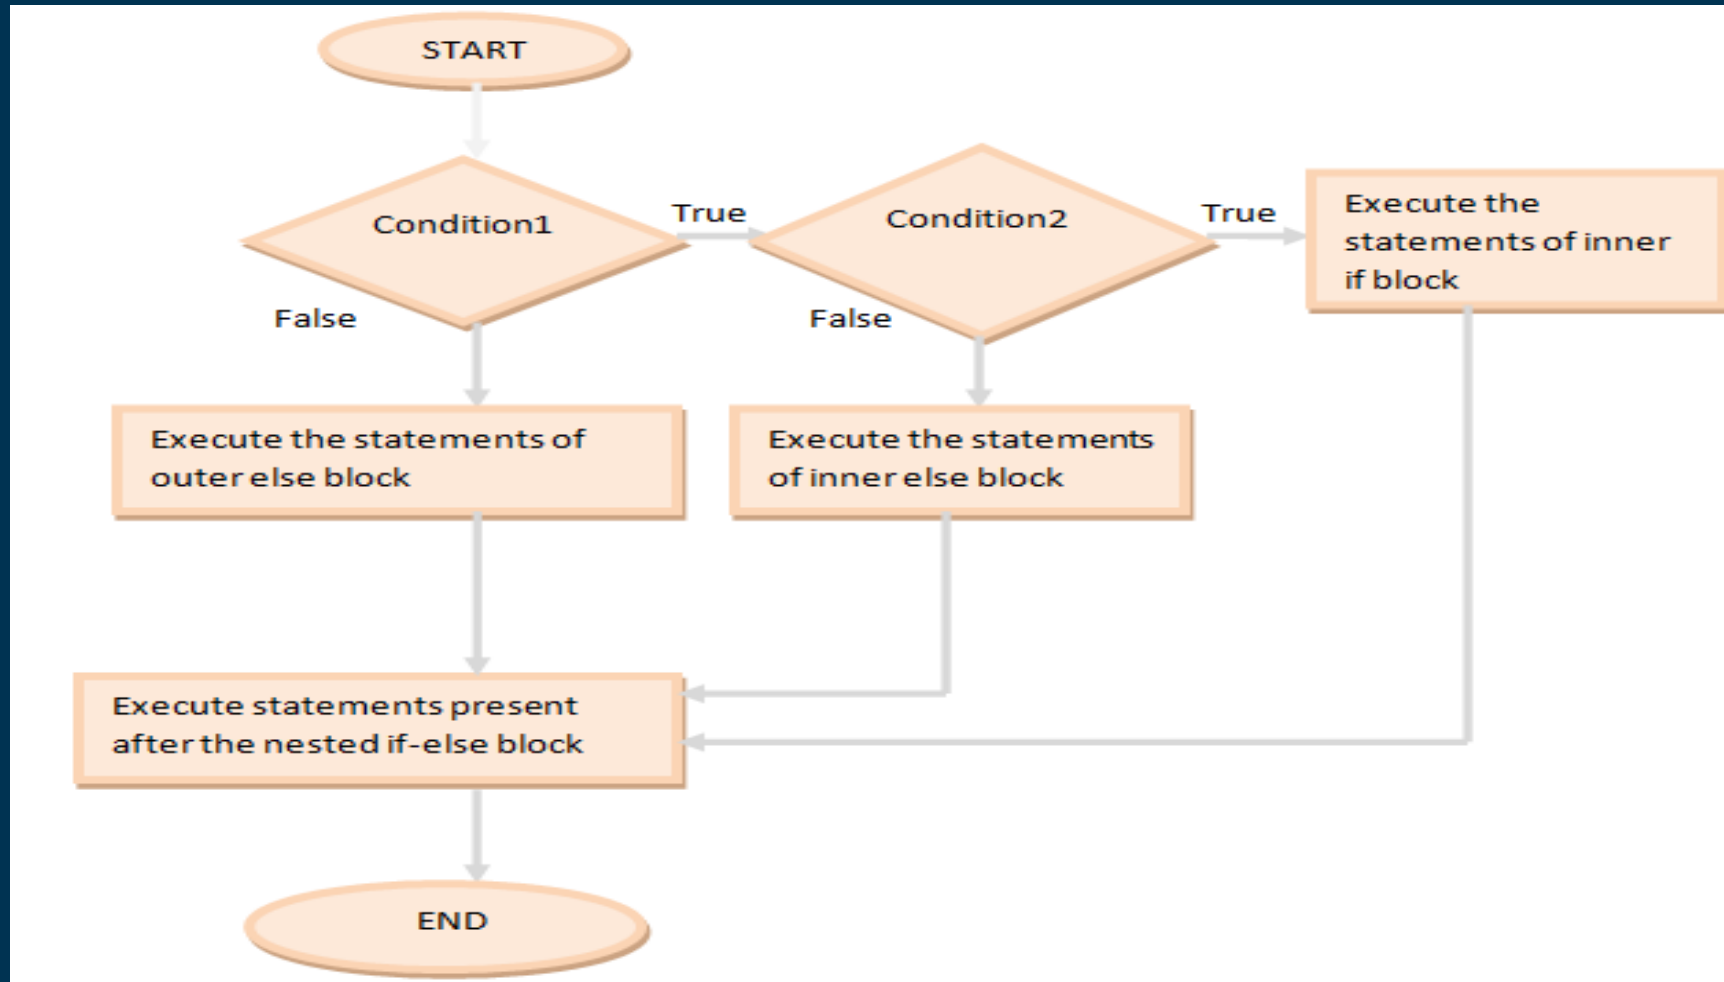

Figure 13

If-Else Ladder

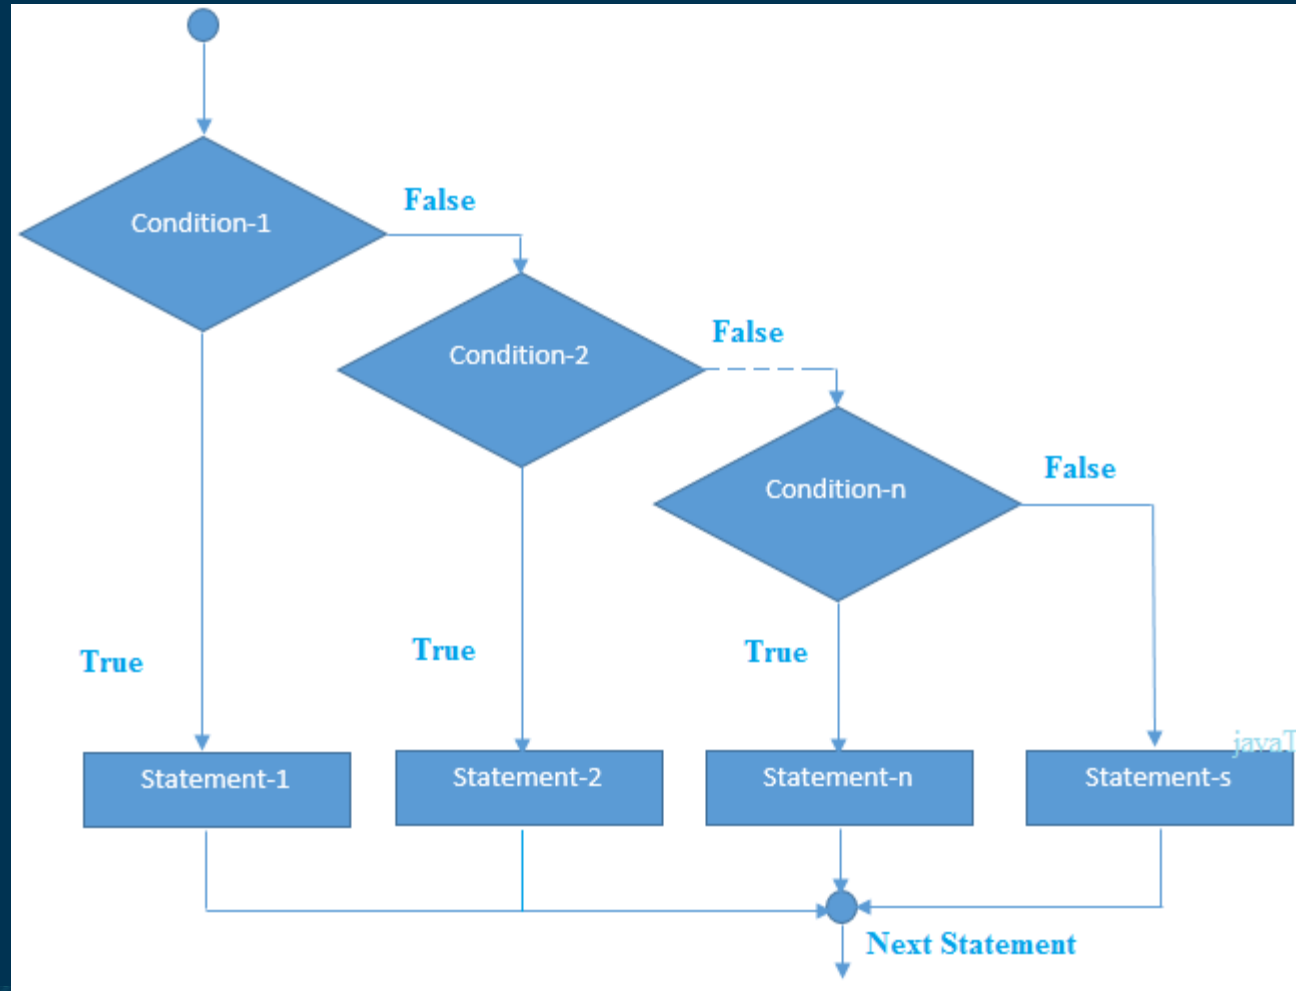

Figure 14: If Else Ladder

Indentation is the only way to figure out the level of nesting.
